Experience activity

March 2016

Started 1 project

Cinefex iPad Edition

An iPad reader for the Cinefex visual effects magazine, with extras such as videos and image galleries.

 Facilitated transfer from original developer to Cinefex LLC

- Fixed in-app-purchase issues
- Updated video player after Apple dropped support for previous API
- Updated issue download code after Apple dropped support for previous API (notice a trend?)
- Optimized startup time and browsing
- Updated to comply with ever-changing Apple requirements

December 2013

Started 1 project

- [Talk Dim Sum](#)

August 2011

Started 1 project

Emo-Ray vs. the Intergalactic Teddy Bears

A Playstation Home driving/shooting game with alien invader teddy bears.

- Implemented collision physics among cars
- Programmer credit displayed in-world

Started 1 project

RC Rally

A Playstation Home multiplayer racing game.

- Made some UI fixes just before release

November 2008

Started 1 project

HyperBowl

Be the ball! A Unity reimplement of the classic bowling game, licensed from Hyper Entertainment.

- One of MacLife's Greatest iPhone Apps of 2009

- Available on the App Store and Steam

- Formerly available on the Amazon Appstore, Nook store, Itch.io, and various crappy app stores (crappstores?)

August 2007

Started 1 project

Blue Mars

A 3D virtual world implemented with CryEngine.

- Documented the Lua API and framework for creating minigames on the community wiki (a CryEngine wiki even copied part of it!)
- Integrated newer versions of Scaleform, including Scaleform IME for localization
- Tweaked CryEngine physics to support an in-world golf game
- Attended in-world developer meetings. Better than Zoom.

May 2007

Started 1 project

Fugu Games

Small games released as webplayers, Mac widgets, and mobile apps.

- Fugu Maze, a suspense maze walkthrough that got twenty thousand downloads on the App Store in the first week and then a trickle after I started charging for it
- Fugu Bowl, a simple proof of concept for HyperBowl that got low ratings but was my most downloaded app (until Apple rejected upgrades).

April 2007

Started 1 project

Nendo

A nifty 3D modeler originally developed at Nichimen Graphics.

- Updated to work on Windows XP.

August 2006

Started 1 project

Darkwatch

A vampire western for Playstation 2 and Xbox. demo builds.

- Worked on HUD elements for health, ammo, special powers
- Implemented split-screen (multiple Renderware cameras) for multiplayer
- Added PAL support
- Integrated Lua scripting for audio effects and HUD elements
- Received programmer credit (but oddly required to list city of birth)

November 2003

Started 1 project

Tech Deck: Bare Knuckle Grind

A skateboarding game bundled with Tech Deck figures.

- Implemented installers so each game could be packaged separately and installed in any sequence
- Added dynamic shadows to replace the placeholder blob shadows (and then switched back to the blob shadows because the art director liked them better)
- Set up a push-button scripted build system so the producers could create a latest build from the subversion source at any time

December 2000

Started 1 project

HyperBowl

A 3D attraction bowling game, rolling in fanciful locations.

- Added localization support, particularly for Jillian's installations in Montreal (French)
- Implemented support for (potential) new lanes, e.g. a toy room, motocross slope...
- Profiled, optimized (those lanes kept getting bigger and bigger)
- Fixes for new graphics cards (pesky w-buffer...)
- Changes to facilitate arcade and PC versions (I'm there in the mobygames credits)

March 1999

Earned 1 award

● Leverage for Planning/Scheduling

December 1999

Joined Technicat LLC

● working for myself

November 1999

Started 1 project

Neomar

One of the first mobile web browsers, conforming to WAP standards.

- Implemented an HTTP proxy in Java for the Neomar WAP gateway
- Launched on Motient's Blackberry service
- Company assets acquired by Good Technology

October 1998

Started 1 project

● Leverage for Planning

November 1998

Started 1 project

● Leverage for Scheduling

August 1997

Started 1 project

Mirai

Successor to N-World

- Fixed some graphics code (which I eventually realized was originally written by me)
- visited 3D hardware vendors in Silicon Valley (including a young nVidia) to get test cards and discuss OpenGL issues
- Used to make Gollum in the Lord of the Rings movies.

November 1995

Started 1 project

N-World

A 3D modeling and animation package descended once upon a time from the Symbolics Graphics Group (written in Lisp, shhh!).

- Ported from IrisGL to OpenGL on SGI workstations
- Ported from Irix to Windows NT
- Manager of Core Software (I made up the title)
- Used in the making of Mario 3D.

May 1993

Finished 1 degree at Johns Hopkins University

- [Masters degree · Computer Science](#)

December 1993

Earned 1 award

- [First Hubble Servicing Mission](#)

November 1992

Started 1 project

ORBIS

An expert system for submarine simulation.

- Added support for local area network simulations (i.e. games)
- Added Distributed Interactive Simulation support for wide-area network simulations (wargames)
- Donned a submarine uniform and took part in two exercises like I was in The Hunt for Red October

October 1990

Started 1 project

Proposal Entry Processor

A syntax-directed Emacs mode used by astronomers and Institute staff to prepare and edit Space Telescope observation proposals.

- A member of the proposal preparation staff asked for my project to be continued after I left (but alas, no takers).

September 1989

Started 1 project

- Database Accelerator

May 1988

Joined various

- working for the man

Started 1 project

- DROID

Finished 1 degree at Massachusetts Institute of Technology

August 1987

Started 1 project

Multilisp

Bachelors thesis project implementing an Othello game in Multilisp (Multello) to run on the Concert 32-processor computer, trying various parallelism strategies to compare processor utilization and final performance.

● Wrote the thesis in LaTeX on a Symbolics Lisp Machine.

● Cited in a PhD thesis.

May 1987

Started 1 project
